BUILD WITH PURPOSE

SUSTAINABLE NORTHWEST WOOD is the bridge between responsible forestry, beautiful local wood products and your building or remodeling project. Our mission is to foster a wood products community where each purchase for the built environment ensures resilience in the natural one.

PLACE Sourced from FSC® certified woodlands, salvaged from ecosystem restoration projects, or reclaimed from the waste stream, all of our wall paneling and cladding products are Northwest local. Grown here. Made here.

PURPOSE From tongue and groove to shiplap to sleek hardwood wall slats, our wood paneling products add warmth, texture and a biophilic connection to the natural world. Good Wood supports healthy forests, our local economy and thriving communities.

PEOPLE We partner with a network of land stewards, small mills, and fabrication shops throughout the Northwest. Our team of wood enthusiasts can help you find the perfect wood products for your project. Call us or stop by our showroom in SE Portland.

SPECIES Bigleaf Maple, Campground Blue Pine, Douglas Fir, Myrtlewood, Oregon White Oak, Pacific Madrone, Sugar Pine, Restoration Juniper, Tanoak, Western Red & Incense Cedar, White Fir and Willamette Valley Walnut, FSC® available in many of our wood products. Just ask us!

PROFILES Flush Face, Channel Gap, Classic V-Groove, Shiplap, Wall Slats and a variety of custom profiles.

PRE-FINISHED OPTIONS AVAILABLE ask for details.
