SANKOFA FSC® RECYCLED DIMENSIONAL LUMBER

Sankofa Lumber is a Minority Woman Owned Business in Portland OR, whose founder Valerie Carey has a mission to reduce waste, create local jobs and close the loop on a circular economy.
OR COBID certification: #13186

Recycling and reusing wood waste is climate-smart, capturing and storing the embodied carbon when this wood is built back into buildings, reducing the need for virgin material and supports local small businesses. This FSC® Recycled product will help keep TONS of Good Wood out of the landfill! Perfect for less than standard length studs in window & door framing, plating, blocking, temporary forms and more.

PRE-CUT BLOCKING

14-3/8" pre-cut blocking for 16"OC
22-3/8" available by pre-order only
Palletized, making it easy to hoist up to the top of the tallest building.
Save time, space, and reduce job-site injuries.

ROUGH OPENINGS

For standard rough openings for conventional framing or advance framing.

40"+ : headers, trimmers and sills for 36" rough opening
52"+ : headers, trimmers and sills for 48" rough openings
6'+ : versatile length for cripple walls
86"+ : perfect for 80" or 84" door trimmers

STUDS

Stud material (use for single or double top-plate elevations):
92-3/8"+ for 8' walls instead of ordering 8'
104-3/8"+ for 9' walls instead of ordering 10'

PLATES

Plate material by LF in 8'+, 10'+ and 12'+ random lengths

AVAILABILITY

Items above are in stock and readily available

Inquire about availability of:

1x4 and 1x6 rainscreen battens (by LF)

2x8 – 2x12 for blocking, headers, stair treads (specify by the minimum lengths required)
